

**ROLE: Technical Product Manager**

**LOCATION: Bangalore, India**

**TYPE: Full time**

**EXPERIENCE: Mid-Senior Level**

**JOB FUNCTION: Product Management**

## **BIMA OVERVIEW**

---

We use disruptive mobile technology to bring insurance and health services to consumers at the bottom of the pyramid, on a scale never seen before. In just six years, BIMA has established itself as one of the fastest-growing and most innovative companies in emerging markets. We already have thriving operations in 15 markets across Africa, Asia, Latin America and the Caribbean, with 33 million subscribers registered to date. We continue to show a strong growth trajectory, adding over 575,000 new customers per month.

The company is led by a dynamic group of young entrepreneurs seeking to disrupt the industries in which we work and democratize access to vital services for billions of underserved families. We are looking for a talented, intelligent and adventurous individual who thrives in a fast-paced environment.

Joining BIMA at this stage of its journey provides you with an opportunity to truly influence the strategy of a global, growing business. We are a vibrant company where ideas and passion are welcomed and you get real responsibility from day one.

## **THE ROLE**

---

BIMA is currently recruiting for a Technical Product Manager to help drive the development of our next generation solutions to transform our mHealth services and claims processes.

### **Specific responsibilities include:**

- Develop a deep understanding of business needs and customer requirements for BIMA's mHealth and claims platforms;
- Drive the pilot and launch of new products and product features by building cross-functional partnerships across the organisation;
- Establish, prioritise, and maintain a technical product roadmap to support the launch of these new products and features and effectively communicate this roadmap across the organization;
- Be obsessed with quality - steer bug investigations, root cause analysis, and lead the follow-ups to ensure constant improvement of the product;
- Work closely with the development team day to day to convey requirements, planning releases, and answering queries;
- Partner closely (as the technical product lead) with the mHealth Product Manager outlining and devising the technical roadmap, providing regular development status

updates whilst also helping to facilitate/influence longer term strategic product direction;

- Create and own technical and user-friendly documentation;
- Travel required; upon launching new platforms time will be spent in BIMA's local markets.

## THE CANDIDATE

---

This person must be able to understand and drive towards a clear overarching vision whilst valuing and being attuned to details.

### Experience:

- Fluency in English is required;
- 5 years or more of product management experience;
- Ability to think strategically and craft a compelling product vision;
- Ability to understand technical challenges and make educated decisions on trade-offs;
- Prior experience in building roadmaps and overseeing project execution;
- Experience driving impact through cross-functional leadership;
- Excellent communication, organization, analytical, and documentation skills;
- Experience product managing the development of insurance and / or health software solutions is a plus;
- Experience working in emerging markets is a plus;
- Bachelor's or Master's degree in an engineering discipline (computer engineering or computer science degrees are preferred).

## WHY BIMA?

---

BIMA has a very distinct culture. We like people who are smart and independent, but we don't like ego. We share our ideas as readily as we do our opinions, and are respectful when doing so. We are driven and ambitious but most importantly we never lose our sense of humor.

Everyone in the BIMA team shares a passion for adventure. We look for bold people who love to travel, experience different cultures and try new things.

Our recruitment process is rigorous, but it has helped us build an impressive, dynamic team that shares a strong bond. If you match the profile described above we want to hear from you.
