## **BIMA OVERVIEW**

---

BIMA is one of the fastest-growing impact and tech companies in the world. We use disruptive mobile technology to bring insurance and health services to consumers at the bottom of the pyramid, on an unprecedented scale. In just five years, we've built a customer base of over 28 million subscribers in 15 countries across Africa, Asia, Latin America and the Caribbean.

The company is led by a dynamic group of young entrepreneurs who are committed to disrupting the traditional insurance industry and democratizing access to vital services for billions of underserved families around the globe. In addition to being a recognized leader in innovation and inclusion, BIMA is one of the most attractive emerging market and insurance tech investment opportunities in the world.

Joining BIMA at this stage provides an opportunity for you to truly influence the strategy of a global, growing business. We are a vibrant company where ideas and passion are welcomed and you get real responsibility from day one.

We have brought together top-quality talent from the worlds of consultancy, development, technology, telecoms, health and finance to create a company like no other. Personality is just as important to use as experience; we are looking for intelligent, ambitious and adventurous individual who thrives in a fast-paced environment without ego. If this sounds like you, we encourage you to apply.

## THE ROLE

---

We are looking to build up our regional team with smart people who are ambitious, work well independently and in teams, are not looking to be behind a desk all day and are passionate about working in a company aiming to improve the lives of millions at the grass root level.

## RESPONSIBILITIES

Specific responsibilities include:

- Lead analytical projects and support Bima's business decisions through analytics projects designed to increase understanding of business drivers, improve performance and to optimize customer acquisition and retention.
- Build analytical tools and reports for use by self, team, and others in organization
- Proactively identify areas/decisions where additional analytic or strategic insight is needed, and develop recommendations
- Assist in top line business forecasting - Partner with the Country Managers and the Regional Management team to forecast revenue for the business during the budget process as well as during the regular reforecast cycles
- Coordinate with different teams to develop data collection procedures and manage their successful implementation.
- Successfully manage multiple, simultaneous projects with mutually exclusive teams, partners, objectives, resources, and constraints.

## THE CANDIDATE

---

**You must have:**

- 1-3 years' experience in a business analyst role
- Experience working with large datasets in SQL, R, Stata, etc. preferred
- Ability to think critically and proactively: identify problems and develop solutions independently
- Ability to build relationships with internal stakeholders operating in diverse geographical and cultural contexts
- Solution focused analysis: given a business situation, demonstrated ability to develop solutions based on independent analysis
- Fluent English
- Strong Excel modelling skills
- Previous experience in start-up role is preferable
- Degree from top tier academic institution

## WHY BIMA?

---

BIMA has a very distinct culture. We like people who are smart and independent, but we don't like ego. We share our ideas as readily as we do our opinions, and are

respectful when doing so. We are driven and ambitious but most importantly we never lose our sense of humor.

Everyone in the BIMA team shares a passion for adventure. We look for bold people who love to travel, experience different cultures and try new things.

Our recruitment process is rigorous, but it has helped us build an impressive, dynamic team that shares a strong bond. If you match the profile described above we want to hear from you.
